Professional Summary

Motivated and detail-oriented Frontend Developer experienced in JavaScript, HTML5, and Tailwind CSS. Actively sharpening skills in React.js to deliver modern, user-focused, responsive web applications. Familiar with backend integration using Flask and REST APIs. Passionate about clean code, seamless interfaces, and practical problem-solving. Seeking to join a growth-oriented, remote-friendly team that values collaboration and continuous learning.

Technical Skills

- **Frontend:** JavaScript (ES6+), React.js (in progress), Redux Toolkit, Tailwind CSS, HTML5, CSS3
 - **Backend (Basic Knowledge):** Python, Flask, FastAPI, PostgreSQL, Firebase (Auth & DB)
 - **Tools:** Git & GitHub, Docker, Postman, Swagger, Figma, Jest
 - **Soft Skills:** Communication, Adaptability, Remote Collaboration, Time Management, Problem-Solving
-

Projects

[Bella Otér](#) – Mini Product Discovery Page

React.js | Tailwind CSS | Google Fonts | LocalStorage

- Built a mobile-first product discovery web app that simulates the initial step of the Raven Body Profile.
- Developed a user flow where individuals pick a mood (Grounding, Softness, Energy, Freedom) to receive a personalized product suggestion.
- Employed React.js and Tailwind CSS, integrated custom Google Fonts, SVG icons, and persisted preferences via LocalStorage.
- Features included a responsive layout, smooth transitions, mood-specific product details, a welcoming design aesthetic, a “Start Over” option, and a personalized

welcome-back message for returning users

Education

- **Moringa School** – Software Engineering Professional Certificate
2024
 - **Power Learn Project** - *Software Engineering (Ongoing)*
-

Relevant Strengths

- Experience in HTML, CSS, and JavaScript; expanding expertise in React.js
 - Familiar with connecting frontend apps to backend APIs using Flask and REST
 - Basic knowledge in responsive UX/UI design using Tailwind CSS
 - Skilled with version control and remote collaboration tools
 - Strong communicator, self-motivated, and effective collaborator within distributed teams
 - Committed to continuous learning and driven to grow in dynamic, AI-driven environments
-

Interests & Aspirations

- **Cybersecurity & Ethical Hacking:** Developing a strong foundation in security tools, simulations, and terminal-based exploits
- **Startup Development:** Exploring full-stack prototypes in sectors like fintech, agri-export, adult content tokenization, and SaaS
- **AI & Automation:** Interested in applying AI to trading bots, user behavior modeling, and secure automation
- **Creator Economy:** Building platforms that support decentralized content ownership and revenue models
- **Open-Source Collaboration:** Eager to contribute to security, developer tooling, and educational open-source projects
